FLOMO PLASTICS INDUSTRIAL CO., LTD.
NO. 42, CHUNG SHAN ROAD SEC. 2, HU NEI DIST., KAOHSIUNG 82942, TAIWAN

The following sample was submitted and identified by the client as ECO ERASER – WHITE / CHARCOAL (1 formulation and 1 additional color).

Net Weight : 24 g per consumer product
SGS Report No. : HKHC1507005402HC
SGS Case No. : HKHC150700002410
Style/Item No. : ER-T20 / ER-TC20 / ER-T33 / ER-TC33 / ER-T101 /
ER-TC101 / ER-T102 / ER-TC102
Country of Origin : Taiwan
Country of Destination : US
Labeled Age Grading : 3 years old or above
Sample Receiving Date : Jul 29, 2015
Last Information Date : Aug 06, 2015
Test Period : Jul 29 – Aug 13, 2015

Test Requested

For compliance with Labeling of Hazardous Art Materials Act (LHAMA) and the criteria outlined in ASTM D-4236.

Test Results

Please refer to the following pages.

Conclusion

The submitted samples comply with *Labeling of Hazardous Art Materials Act (LHAMA)* provided that the following labeling practice (*see page 2*) has been indicated on the product label.

Test Report

No. HKHC1507005402HC

Date : Aug 13, 2015 Page 2 of 3

TEST RESULTS:

The formulation of ECO ERASER – WHITE / CHARCOAL – Eraser in white and charcoal color is reviewed according to the US Consumer Product Safety Commission's guideline at 16 CFR 1500.135 and the criteria outlined in ASTM D-4236.

In this review the available data, including the relevant data from the National Toxicology Program (**NTP**), International Agencies for Research on Cancer (**IARC**) and other sources in the National Library of Medicine Data Bank were considered to assess the need for chronic health hazard warning. The carcinogenicity, reproductive hazard, neurotoxicity, bioavailability and potential exposures were also considered and in the absence of specific data, a reasonable judgment was made to assure a realistic assessment of the hazard on the ultimate art material package.

The review is based only on the submitted formula. According to the client's needs and to protect business secrecy, detailed formulations are NOT presented in this report, whereas they are recorded in the SGS Archives. In case of medical events, it is the client's responsibility to provide the formulations to a patient's physician, or SGS upon request may furnish relevant medical units, on a confidential basis, information necessary to diagnose or treat cases of exposure without prior written authorization. The ingredients used shall fulfill corresponding purity requirements. The polymer (if present) is assumed to be well-cured and the ingredients in this product are assumed to contain no contaminants or residues at level that would cause chronic toxicity among users when used for its intended purpose. If there is any alteration to this formula or if heavy metal contamination such as lead is detected in this product, it will void this certification.

The product is intended for children of 3 years old or above for erasing mistakes. The formulation contains an UV absorber, Drometrizole, which is indicated to be a skin sensitizer. However, it is present in the formulation at a very low concentration and is expected to be bound with the other polymers in the formulation, hence should not release and cause a significant health concern. None of the other ingredients at a level found in this product is expected to pose any significant chronic adverse health effects in consumers with customary use. Provided that the polymers are well-cured and the ingredients do not contain any hazardous residues and contaminants, it is considered that, in the present state of knowledge, the submitted formulation put on the market is unlikely to cause chronic toxicity among users, when used as intended or reasonable foreseeable misuse.

Labeling Practice:

The following parameter should be indicated on the product label conspicuously and legibly.

CONFORMS TO ASTM D-4236

The validity of this review depends on the validity of disclosure by both the manufacturer of the components and that of the finished products. In addition, best professional capabilities are used in performing this review and if the client wishes to use this opinion with any alterations to the submitted formula, SGS (HK) Ltd. or any of its employees will not be held reliable for any injury or damage resulting from this product. This review will need to be updated **every five years** or upon reformulation or upon change of new significant safety information. In addition, the submitted sample should also be in compliance with US CPSC additional guidelines in all respects.
